Technical Skills

Languages and Databases: Python, MySQL, OOP(C++), SQL (SQL Server, MySQL), DBMS, HTML, CSS

Tools: Virtual Box, Power BI, Excel, Jupyter Notebook, Google Colab, GitHub, Anaconda Navigator, Microsoft Visual Studio, Visual Studio Code, Sublime Text Editor, Microsoft SQL Server Management Studio, MySQL Workbench,

Other Skills: Software Engineering, SQL Database, Advanced Excel, Microsoft Word, PowerPoint, , Problem-Solving Ability, Creative Thinking, Team Collaboration, Customer Service

Experience/Projects

SZABIST (LAB)   **Nov 2024 – Present**

Intern

- Learned and applied core concepts of cloud platforms (AWS, GCP, Azure) and Infrastructure as Code (IaC) under the guidance of experienced engineers.
- Assisted in writing and managing Terraform code for provisioning basic cloud resources as part of infrastructure automation tasks.
- Supported the maintenance of CI/CD pipelines, helping ensure smooth code integration and deployment processes.
- Collaborated with team members on day-to-day DevOps activities, including basic cloud operations and automation tasks.
- Practiced scripting in Python and Bash to automate simple tasks and improve operational efficiency.
- Gained exposure to real-world DevOps tools, cloud practices, and teamwork in a dynamic and fast-paced environment..
- Developed **custom websites, e-commerce platforms (Shopify, WordPress), and coded websites** using HTML, CSS, and Bootstrap.
- Collaborated with cross-functional teams to design and maintain **websites and web applications**.
- Basic understanding of **databases** and **Software Development Lifecycle (SDLC)** principles.

Personal Projects/Awards & Achievements

My Portfolio. (incomplete)

Personal Portfolio Website showcasing projects, skills, experience, and contact info with smooth scrolling and

Responsive design

Banking Management System | *visual studio*

Developed banking management system by using C++ language. In this project created loan module for banking and also checked transactions

Foodpanda networking system| *Wireshark Cisco packet*

Developed different types of network to communicate between client and server

Cloud-based-website| *visual studio*

    Developed a modern, cloud-based web application using HTML, CSS, and advanced JavaScript

Guess the number game| *visual studio*

Developed a modern, game using HTML, CSS, and advanced JavaScript

---

Education

BS Computer Science   *Shaheed Zulfikar Ali Bhutto Institute of Science and Technology*

Studied core subjects : Fundamental of programing ,Object Oriented Programing, Data Structured, Data Alograthium and Flowcharts , Database Management Systems, Operating Systems, Software Engineering, Artificial Intelligence, Android development, Calculus, Probability and Statistics, Discrete Mathematical Structures, Linear Algebra
