## Technical Skills

**Languages and Databases**: Python, MySQL, OOP(C++), SQL (SQL Server, MySQL), DBMS, HTML, CSS

**Tools**: Virtual Box, Power BI, Excel, Jupyter Notebook, Google Colab, GitHub, Anaconda Navigator, Microsoft Visual Studio, Visual Studio Code, Sublime Text Editor, Microsoft SQL Server Management Studio, MySQL Workbench,

**Other Skills**: Software Engineering, SQL Database, Advanced Excel, Microsoft Word, PowerPoint, , Problem-Solving Ability, Creative Thinking, Team Collaboration, Customer Service

## Experience/Projects

**SZABIST (LAB)** **Nov 2024 – Present**

*Intern*

- Learned and applied core concepts of cloud platforms (AWS, GCP, Azure) and Infrastructure as Code (IaC) under the guidance of experienced engineers.
- Assisted in writing and managing Terraform code for provisioning basic cloud resources as part of infrastructure automation tasks.
- Supported the maintenance of CI/CD pipelines, helping ensure smooth code integration and deployment processes.
- Collaborated with team members on day-to-day DevOps activities, including basic cloud operations and automation tasks.
- Practiced scripting in Python and Bash to automate simple tasks and improve operational efficiency.
- Gained exposure to real-world DevOps tools, cloud practices, and teamwork in a dynamic and fast-paced environment..
- Developed **custom websites, e-commerce platforms (Shopify, WordPress), and coded websites** using HTML, CSS, and Bootstrap.
- Collaborated with cross-functional teams to design and maintain **websites and web applications**.
- Basic understanding of **databases** and **Software Development Lifecycle (SDLC)** principles.

### Frontend Developer – Roles & Responsibilities

- Developed and maintained responsive, client-facing web applications using React, JavaScript, HTML, and CSS
- Integrated frontend applications with backend APIs to deliver seamless user experiences
- Collaborated closely with product managers, designers, and backend engineers to implement new features
- Optimized application performance and ensured cross-browser compatibility
- Participated in system updates, feature enhancements, and ongoing maintenance
- Ensured code quality through unit and integration testing using Jest and React Testing Library
- Followed best practices for accessibility, scalability, and maintainable code
- Worked in an Agile environment, contributing as an individual contributor and team collaborator

## Personal Projects/Awards & Achievements

***My Portfolio. (incomplete)***

Personal Portfolio Website showcasing projects, skills, experience, and contact info with smooth scrolling and Responsive design

**Banking Management System** | *visual studio*

Developed banking management system by using C++ language. In this project created loan module for banking and also checked transactions

**Foodpanda networking system**| *Wireshark Cisco packet*

Developed different types of network to communicate between client and server

**Cloud-based-website**| *visual studio*

Developed a modern, cloud-based web application using HTML, CSS, and advanced JavaScript

**Guess the number game**| *visual studio*

Developed a modern, game using HTML, CSS, and advanced JavaScript

## Education

***BS Computer Science*** ***Shaheed Zulfikar Ali Bhutto Institute of Science and Technology***

*Studied core subjects : Fundamental of programing ,Object Oriented Programing, Data Structured, Data Alograthium and Flowcharts , Database Management Systems, Operating Systems, Software Engineering, Artificial Intelligence, Android development, Calculus, Probability and Statistics, Discrete Mathematical Structures, Linear Algebra*
